WORK EXPERIENCE

Freelance Web Development

Philadelphia, PA

Full-Stack Developer

Mar 2023 - Current

- Design high level prototypes within Figma to showcase UX/UI of a website prior to development.
- Develop responsive websites for multiple device types including mobile, tablet, and desktops.
- Utilize React.js and its Virtual DOM to create component-based code that focuses on user experience.

Tokio Marine North America Services

Bala Cynwyd, PA

Desktop Support Analyst II

May 2019 - Sep 2022

- Provide IT support to over 1,500 non-technical employees of TMNAS and Philadelphia Insurance.
- Maintain IT ticketing system and standards using ServiceNow.
- Create backups for client's data to ensure data migration to new hardware was successful.
- Utilize Active Directory to manage user permissions based on job roles and responsibilities.
- Apply security patches, updates, and configurations on newly imaged machines before deployment.

SPS Technologies

Jenkintown, PA

Network Technician Intern

Sep 2017 - Mar 2018

- Created instructional and technical documentation for newly integrated applications.
- Upgraded and installed security software on critical servers to ensure latest security patches.
- Utilized System Center Configuration Manager to generate security reports for analysis.

PROJECT EXPERIENCE

scottbui.dev

Personal Website

Full-Stack Developer

- Developed a website using React.js and styled it with Tailwind CSS.
- Successfully replicated the style of a preferred website to achieve specific design goals.
- Implemented a modular and reusable component-based architecture in React.
